1. Statement of Accounting Policies

The financial statements of the group have been drawn up in accordance with generally accepted accounting principles and in accordance with the Companies Act No. 12 of 1986 of the Republic of Vanuatu. They have been prepared on the basis of historical costs and do not take into account changing money values. Except where stated, the accounting policies have been consistently applied.

Set out below is a summary of the significant accounting policies adopted by the group in the preparation of its financial statements:

(a) Foreign Currencies

All foreign currency transactions are translated to Australian currency at the rate of exchange ruling at the dates of the transactions. Amounts receivable and payable in foreign currencies are translated at the rates of exchange ruling at balance date. Gains and losses arising on such translations are recognised in the results for the period.

(b) Depreciation

Fixed assets, including buildings and leasehold land, are depreciated over their estimated useful lives. Fixed assets are first depreciated in the year of acquisition. The straightline method of depreciation is used.

(c) Trustee and Nominee Operations

No account is taken in the balance sheet of assets held or liabilities incurred by the group in its capacity as trustee or nominee for third parties.

2. Country of Incorporation and Principal Activities

The companies of the group were incorporated and are registered in the Republic of Vanuatu. The group's principal activities are the provision of trustee and nominee services, corporate administration, the acceptance of deposits and the rental of commercial property.
